

INTERNSHIP PRESENTATION

AWS Cloud Virtual Internship

Cloud Foundations & Cloud Architecting | AICTE–EduSkills Virtual Internship Program

NAME	Sameer Choudhary
ROLL NUMBER	2410030701
INSTITUTE	IILM University, Greater Noida
DURATION	April 2026 – June 2026 (8 Weeks)

Student Profile

Sameer Choudhary

B.Tech, Computer Science & Engineering

ROLL NUMBER

2410030701

BRANCH

B.Tech (CSE)

UNIVERSITY

IILM University, Greater Noida

BATCH

2024 – 2028

About the Internship

The AICTE – EduSkills Virtual Internship Program is conducted under the patronage of the All India Council for Technical Education (AICTE) and the National Internship Portal, with EduSkills Academy as the implementing partner and AWS Academy providing the curriculum.

It follows a structured, week-wise curriculum spanning Cloud Foundations and Cloud Architecting – combining conceptual learning with weekly assessments, project submissions, and a Final Assessment Test.

Virtual, self-paced learning platform

Weekly assessments + Final Assessment Test

April – June 2026 (8-week duration)

Virtual Internship Certificate on completion

Note: There is no stipend associated with this internship.

Program Information

Field	Details
Internship Domain	AWS Cloud (Cloud Foundations & Cloud Architecting)
Institute	IILM University, Greater Noida
Duration	April 2026 – June 2026 (8 Weeks)
Reference No.	C16Y2026M071411006
AICTE Student ID	STU69cc03d38d5901774978003
Curriculum Provided By	AWS Academy
Conducted By	EduSkills Academy, under AICTE – National Internship Portal

Weeks 1–4: Cloud Foundations

WEEK 1

Foundations

Cloud concepts, economics & billing, and AWS global infrastructure.

WEEK 2

Foundations

Cloud security, networking, and content delivery.

WEEK 3

Foundations

AWS compute, storage, and database services; cloud architecture fundamentals.

WEEK 4

Foundations

Automatic scaling and monitoring to optimize performance and resources.

Weeks 5–8: Cloud Architecting

WEEK 5

Architecting

Cloud architecture, IAM security, Amazon S3, EC2, RDS, VPC & VPC peering.

WEEK 6

Architecting

Secure access with IAM & KMS; monitoring, elasticity, and HA with EC2 & Route 53.

WEEK 7

Architecting

Decoupled architectures with Amazon SQS; serverless microservices with AWS Lambda.

WEEK 8

Architecting

Data engineering patterns, disaster recovery planning & AWS certification prep.

AWS Cloud Architecture Overview

Security & Identity

IAM • KMS • Access Policies

Networking

VPC • Subnets • VPC Peering • Route 53

Compute

Amazon EC2 • Auto Scaling

Storage & Database

Amazon S3 • Amazon RDS

Serverless & Messaging

AWS Lambda • Amazon SQS

Monitoring & Resilience

CloudWatch • Disaster Recovery

Each layer builds on the one below it — progressing from Cloud Foundations to Cloud Architecting across the internship.

Tools & Technologies Used

IAM

KMS

VPC

Route 53

EC2

S3

RDS

Lambda

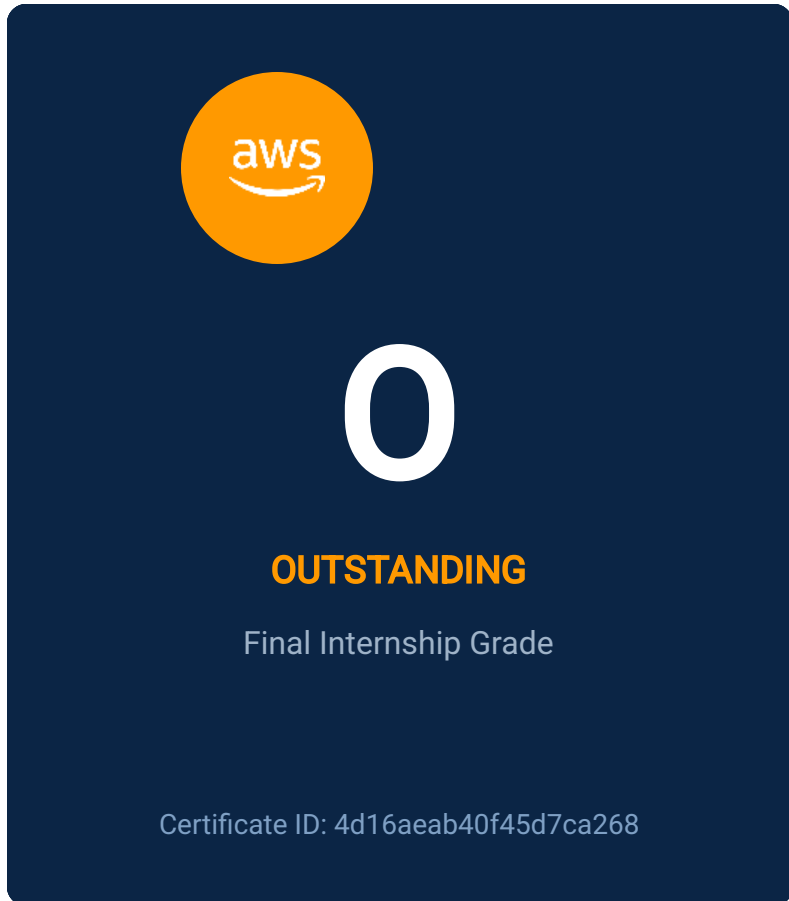

SQS

CloudWatch

Outcomes & Certification

Practical understanding of AWS global infrastructure, security, and networking

Hands-on exposure to EC2 (compute), S3 (storage), and RDS (databases)

Ability to design secure architectures using IAM, KMS, VPC & VPC peering

Skills in building decoupled, serverless systems with Lambda and SQS

Foundation for pursuing the AWS Certified Solutions Architect – Associate exam

Thank You
